Aims

Woodford County High School is committed to providing students with access to appropriate, up-to-date ICT resources and promotes the use of technology in school as all our students will need the skills and knowledge in whatever field of work they enter when they become an adult.

We ensure that our school IT network is robust and resilient and we do our utmost to ensure the safety of children when using it. It is important that pupils abide by the school rules when using technology in school and inform a member of staff immediately, if they become aware of any misuse

Our suite of Acceptable Use & Social Media Policies [(i) Students, ii) Parents, iii) Staff] exists to ensure that all users are familiar with expectations which are designed to ensure safe ICT usage for everyone in the school community and to promote positive and responsible network and Internet behaviour.

Internet

When using the internet for research or recreation, I recognise that:

- I should ensure that I have permission to use the original work of others in my own work
- Where work is protected by copyright, I will not try to download copies (including photos, music and videos)
- Copyright of materials must be respected and all sources acknowledged

Social Media – Guidance

Remember that Interacting with each other on-line is **no** different than interacting face-to-face, we are required to maintain the principles of respect, dignity, prudence, concern for and protection of others, and safety in all interactions.

Think about your personal safety. Do not reveal data about you that:

- could be used to impersonate you or steal your identity (date and place of birth, address, phone number for example)
- might reveal your actual whereabouts or when you're not somewhere (at home, for example) - so think about who you share your location with
- might cost you money (look out for scams and freebies: anything that looks too good to be true, usually is!)

- Think twice before posting. There is no such thing as privacy on the internet. Word spreads quickly. Search engines can turn up posts years after they are created - even after you think you have deleted them - and comments can be forwarded or copied. Inappropriate or inaccurate comments which are damaging to a person's reputation must be avoided, as they could result in a claim of libel. Do not say anything online that you would not say in public. Think carefully about posting anything which you would not want a future employer to read.
- What might seem anonymous usually isn't. Your use can be tracked, even if you think you have an anonymous user account.
- I will never arrange to meet someone I have only ever previously met on the internet or by e-mail or in a chat room, unless I take a trusted adult with me.
- Be respectful. Content on a social media site could encourage comments or discussion of opposing ideas – the audience is far wider than your peers. Consider all comments and responses carefully in light of how they would reflect on you or WCHS. Be aware that any misuse of social media might attract complaints from other students and teachers, which may result in disciplinary action.

I am aware that some websites, games and social networks have age restrictions and I should respect this.

I understand that cyberbullying is taken very seriously at Woodford County High School. This includes abusive emails or text, embarrassing pictures, the misuse of mobile phone apps (including live streaming apps) and social networking sites, etc.

Do NOT send a friend request to any WCHS member of staff, they will not be able to respond.

School Email

- I understand that I will be provided with a school email account and that technical restrictions apply.
- I will be careful when opening files and attachments, checking for viruses etc. If I am unsure I will never open a file, hyperlink or any other attachment.
- I will only use my school-supplied email address for school-related activities.
- I will only communicate with a teacher using the school email account and never my own personal email account.
- The messages I send, or information I upload, will always be polite and sensible. I understand that all messages I send will reflect on me and the school.
- I understand that I may only use and communicate with approved e-mail accounts on the school system
- I will immediately tell a teacher if I receive offensive or inappropriate e-mail.
- I understand that e-mail is not guaranteed to be private. I will only send content via e-mail that is suitable to be read by my school and my parents

Review

The policy will also be reconsidered where particular concerns are raised or to incorporate issues raised by emerging technologies.

This policy will be monitored regularly with a full review being carried out annually by the Governing Body.

Student Responsibility

I understand that I am responsible for my actions, both in and out of school.

If I see anything I am unhappy with or I receive a message that makes me feel uncomfortable, I will not respond to it but I will save it and talk to a trusted adult.

I understand that the school also has the right to take action against me if I am involved in any incidents of inappropriate behaviour that are covered in this agreement, when I am out of school and where they involve my membership of the school community (examples would be cyberbullying, use of images or personal information).

I understand that if I fail to comply with this Acceptable Use Policy Agreement, I will be subject to disciplinary action. This may include sanctions such as loss of access to the school network or internet, detentions, suspensions, contact with parents and in the event of illegal activities involvement of the police.
