Features and Benefits

Instagram features a number of functions to help your child manage who can see their content and how they interact with others. They can also use the reporting function to flag content that breaks community guidelines and upsets them.

What specific content can I restrict?

What do I need?

A Instagram account (username and password)

By default, all profiles are Public on Instagram. You can set your child's account to 'Private' by selecting the 3 dots icon in the top right of the profile view and on the settings screen turning on 'Private Account.

Remove followers – Go to your profile and tap 'Followers' at the top of the screen. Select the follower(s) you wish to remove by tapping on the 3 dots and tapping remove. They will not be notified but they will no longer see your posts.

Keeping comments safe – Tap profile icon, and then the three dots on the righthand side of the screen to see the menu. Scroll down to see comments. Ensure 'Hide Offensive Comments' is switched on. You can also block comments from specific followers. If you'd like to turn this off before posting, click on advanced settings before posting and swipe to 'Turn off commenting'.

Unfollowing a user – If your child no longer wants to see a particular user's content or doesn't like what they see, simply unfollow that person. This can be done directly on their profile page by tapping the person icon at the top of the page and confirming 'Unfollow' or from their profile under 'followers' and un-selecting 'Following'.

Turning off comments – Tap the 3 dots above your child's post and select 'Turn Off Commenting'.
