

## Opal Coast, France – June 2023

The French trip was based on the Côte d'Opale and students had the opportunity to visit coastal towns of Boulogne-sur-Mer and Le Touquet. French food was a thread running through the trip with students sampling local delicacies and visiting chocolate, biscuit factories and a bakery.

This French trip was really enjoyable. I managed to learn quite a few new phrases and improve my listening skills. I particularly enjoyed the aquarium because it was just entertaining to see all the fish and the nearby beach had beautiful sunsets. I was mesmerized by how stunning it looked.
