

Rhine Valley, Germany – July 2023

The Germany trip was based in the Rhine Valley. Students experienced the Rhine in beautiful sunshine travelling along the river, by boat and above by cable car. Anne Gaskell, Modern Foreign Language Teacher Our four day trip to Germany was a remarkable experience; not only educational but also really fun! We left school on Friday from Heathrow feeling excited. Upon entering the country, we were all shocked by the sunset, watching the sun shine behind the mountains was so peaceful. The cozy hotel was situated in a small town. On Saturday took a relaxing walk to the Kaiser Wilhelm monument in Koblenz, where we learnt about German emperors, and how they were linked to the British monarchy.

We went into town and bought many souvenirs. Going into shops was a brilliant opportunity to utilise our linguistic skills and ordering food in German truly did boost our confidence and spontaneity. On Saturday we went on a long cruise, where the views of many mountains was beautiful and we got to see the architecture of typical German houses, fields and crops. On Sunday we took a coach to Rudesheim to a museum of mechanical instruments, it was magical. We took a cable car and went to the beach on Monday. The whole trip was amazing - even the Burger King at the airport on the way home!

Alisha, 9B

The trip to Germany was extremely fun and an amazing experience! I enjoyed the cable car ride the most, as the view was absolutely gorgeous.
