

Duke of Edinburgh Bronze Award 2024

In May and June 2024, our dedicated students embarked on their Duke of Edinburgh (DofE) practice and qualifying expeditions, showcasing incredible resilience and determination.

Despite the challenges, including sleeping in a tent for the first time, they rose to the occasion with remarkable spirit. During the expeditions, many students walked over 10 kilometres each day, carrying heavy bags filled with essential supplies. They demonstrated impressive culinary skills, cooking delicious meals and preparing hot chocolates on their portable cookers, which added a comforting touch to their evenings in the wild.

We are immensely proud of their accomplishments and the positive attitudes they maintained throughout both expeditions. These experiences not only tested their physical and mental endurance but also fostered a sense of camaraderie and self-reliance. Congratulations to all the students for their physical and mental endurance but also fostered a sense of camaraderie and self-reliance. Congratulations to all the students for their outstanding efforts!
