

To former students

We have a growing and vibrant Alumni Network at Woodford and are keen to get in contact with students who left Woodford before 2012.

The Woodford County High School Alumni Network allows us to keep in touch with our former students. We want to make sure that all of our former students feel connected with their school community and don't miss out on opportunities to stay in touch and inspire the next generation of Woodford County students.

Former students have a wealth of advice and guidance about life after school that we want our students to hear, so if you are a former student of Woodford County High School or you know someone who is, please sign up to our Alumni Network by visiting the web address below. After signing up, you'll receive occasional updates on what's going on in school and how you can get involved in supporting the students following in your footsteps!
