Dear Students and Families,

Your challenge this half term is to complete a sponsored 5K walk with family or friends to see if you can raise more money than the WCHS **Staff** 5K Winter Wander for WWF-UK to support UK wildlife which is being impacted by climate change ([Head outdoors on The Big Winter Wander | WWF](#) 12th Feb-25th Feb).

The hedgehog, red squirrel and water vole are the most endangered species in the UK and we can help protect them and other species of animals and plants.

Your challenge is to:

1. **First design a 5K walk in your local area or wherever you are visiting during this half term, using Google Maps or Strada.**
2. **Invite family and friends to join your walk and share the fundraising page below to get sponsored.**

https://www.justgiving.com/page/wchs-1707671230665?utm_term=Z4yDyPxMN

3. **If you wish you can also send photos of your walk to the email sustainabilityprojects@woodford.redbridge.sch.uk (with everyone's permission) and inspire others.**

Come rain or shine get walking and beat the WCHS staff!

Experiences away from home

National Citizen Service (NCS) helps 15-17 year olds build skills for work and life by taking part in new challenges and meeting new people, gaining confidence and independence along the way.

“When my son came back he had just blossomed, his confidence had grown so much it was incredible. I would highly encourage parents to get their teens on NCS, it teaches them to have conversations they wouldn’t normally have the confidence for”.
Parent

NCS away from home experiences are available across the country. Each experience is five days and four nights, and includes a variety of activities centred around one of three themes: Live It, Boss It, or Change It.

The experiences will help boost your young person’s CV and college or university applications - highlighting the broader range of skills they’ve gained to employers and higher education providers.

What Parents & Carers Need to Know about MONKEY

Also known as Monkey Cool, this platform aims to fill the gap left by Omegle (which has now shut down) by placing users in random video chats with strangers. Participants use their mobile number and Snapchat username to connect to the service, where they can make matches, message other people and join group chats. The mobile version has been removed from the App Store due to safety concerns, but iPhone owners can still access the site via their web browser. The app remains available on Google Play, where its listing claims that Monkey has more than 30 million users worldwide.

AGE RESTRICTION
17+

(although the lack of age verification means that someone younger could easily log in with a false date of birth)

WHAT ARE THE RISKS?

AGE-INAPPROPRIATE CONTENT

The app claims to use AI to detect sexual content or activity that violates its policies, along with having a 24/7 moderation team. However, reports in the media continue to indicate that explicit content remains commonplace on Monkey (including sexually graphic or violent material) and is therefore accessible to anybody who uses the app – including those aged under 18.

CONTACT WITH STRANGERS

The obvious risk in accepting random video chat partners is that users cannot know what or who they will see on their next connection. Talking to strangers is, of course, potentially dangerous – especially for children who might be persuaded to meet up with these people offline. The app lets users find each other by location, increasing the chances of a child being matched with a stranger from their local area.

IN-APP SPENDING

While Monkey is free to download, it nevertheless offers in-app purchases promising to unlock access to premium features. For example, users who wish to make use of 'Knock Knock chat' (Monkey's text-based messaging option), rather than the app's Chatroulette-style random video calling feature, will need to pay to be able to do so.

INTRUSIONS ON PRIVACY

According to Monkey's privacy policy, personal information (such as name, profile picture and date of birth), user-contributed content (any photos, texts, videos and screenshots shared) and each user's browser and IP address are collected. That is a considerable amount of data for Monkey to gather on its users – and all of this information is shared with third parties.

Advice for Parents & Carers

DISCUSS THE DANGERS

Even if you're comfortable with your child using Monkey, it's still important to talk about the potential dangers. It's crucial, for instance, that young people recognise the risks that stem from video chatting with strangers; that they understand not to share identifying information (like their street or school name); and that they know what to do if they are exposed to inappropriate content.

REPORT INAPPROPRIATE CONTENT

Monkey states in the safety section of its site that "people are given the power" and that, to a large extent, Monkey is "self-governing." If a user is exposed to sexually explicit or inappropriate content on the platform, they can select the 'police' emoji in the top right corner of their screen to submit a report for Monkey's moderation team to review.

RESTRICT IN-APP PURCHASING

If your child is accessing Monkey via an Android device, you can prevent them from making in-app purchases through the device's settings. If you do allow your child to use the site, we'd recommend that you enable this feature: young people have been known to spend significant amounts of money in their desire to unlock more features in apps such as this.

SPOT THE SIGNS

If you're concerned that your child is spending too much time on Monkey – or that they may have been exposed to inappropriate or distressing content – it's important to watch for potential indications that they've been affected emotionally. They could be unusually irritable or unable to concentrate, for example, or failing to complete their homework or even to eat regular meals.
